

Is manual data sync slowing down your business?

NetScore Amazon Connector

For NetSuite

The **NetScore Amazon Connector for NetSuite** offers a seamless, automated integration between NetSuite ERP and your Amazon store, enhancing operational efficiency by synchronizing product data, inventory, and orders. This solution automates your workflow, saving time and reducing errors, allowing your business to scale while maintaining data consistency and customer satisfaction.

“ NetScore has simplified our order management by consolidating multiple sites into one platform. Our business is complicated, but their team has been exceptional in customizing solutions to meet our unique needs. Thank you, NetScore!

Benefits

Enhanced Operational Efficiency

Streamlines order processing with automated workflows, reducing errors, saving time, and boosting productivity and savings.

Accurate Inventory Management

Prevents stockouts and overselling by synchronizing inventory between Amazon and NetSuite, ensuring timely product availability.

Scalable Business Growth

Effortlessly scales operations with flexible integration that adapts to growth without significant changes or resources.

Unified Customer Insights

Boosts satisfaction and retention by consolidating customer data, enabling personalized marketing and improved service.

Robust Compliance and Security

Protects sensitive data with built-in security, ensuring compliance and building customer trust.

Simplified Order Fulfillment

Manages Amazon orders within NetSuite, reducing complexity for faster, more accurate fulfillment.

Key Features

Automated Product Listings

Publish and update Amazon listings directly from NetSuite, keeping product details like descriptions, prices, and stock levels in sync across platforms.

Streamlined Order Management

Automatically import MFN and FBA orders into NetSuite, manage customer data, and handle returns, refunds, and cancellations without duplication.

Multi-Marketplace Support

Manage operations across all Amazon marketplaces easily, allowing for seamless business scaling and simplified integration.

Automated Inventory Sync

Prevent stockouts with automatic inventory updates between NetSuite and Amazon FBA, ensuring accurate stock management and location-specific adjustments.

Dashboard Analytics

Access order data, inventory, and transactions through intuitive dashboards with automated settlement report integration.

Shipping and Tracking Integration

Export shipment and tracking data from NetSuite to Amazon, ensuring timely delivery updates and enhancing customer satisfaction.
